Some people say that reading is not now as important as it was . Why read a newspaper when the latest news is brought to us hourly on TV ? Why read a story when we can see a film ? Television news broadcasts can certainly be attractive . But we need a newspaper as well . Some important events happen when there are no cameras around and a newspaper doesn't just report the news. . It explains what has been happening . It also contains interesting articles on many subjects / A good film has action, movement, colour and may be music . These are things/we don't find on the printed page. But reading a story makes you imagine. Each of us imagines a story differently. So reading is very important for information and pleasure .

A) Answer the following questions:

- 1- What is brought to us hourly on Tv. ?
- 2- Why do some people prefer watching a film to reading a story ?
