 a. for b. ago c. since d. so far
- 30- It's two hours since she
 a. left b. has left c. had left d. is left

Reading Comprehension

2- Read the following passage and then answer the questions:

The profession of teaching necessarily brings teachers into close contact with children and young people. Effective teaching is based on warm, mutually respectful relationships between teachers and students.

Effective teachers strive to motivate and engage all their students in learning rather than simply accepting that some students cannot be engaged and are destined to do poorly. They believe every student is capable of achieving success at school and they do all they can to find ways of making each student successful. Effective teachers have high expectations of students in terms of both their standard of learning and their behaviour, and they help their students meet those expectations. They also have high expectations of themselves and their own learning.

Effective teachers personalise the learning for their students. They understand that students develop at different rates and that in every classroom there will be a range of student abilities and aptitudes. They accommodate the different needs of students in their class rather than pitch their teaching to the middle, letting some students be bored while **others** struggle or are unable to do the work.

Effective teachers use techniques that have each student working on tasks that engage and challenge them to achieve their personal best. They understand that students learn best when they are presented with new material in a way that enables them to connect it to what they already understand and know how to do.

Effective teachers also understand that students learn best if their particular culture, background and abilities are acknowledged by the teacher in the way they teach.

A. Choose the correct answer:

1- The above passage can be a part of a / an

a. political article

b. talk show programme

c. presentation
